The overall cost is around USD 38,020 (~Rs 34,21,800), including tuition and living expenses for Indian students.

NOTES

Note: Tuition is set in USD, so the rupee column moves with the exchange rate - converted here at 1 USD = Rs 90, a rate that has swung between Rs 90 and Rs 94 in recent years. You pay fees per semester directly to the university. Figures are sourced from the university's own published rates, linked below; several agent websites quote totals as low as Rs 20 lakhs, which does not reconcile with what the university charges.
